In Orangeburg this morning the State Solicitor reported the Governor's resistance to arrest, and inquired what steps the court would take to enforce its authority. The court replied that for the present it did not see its way clear to a successful fight with the State militia. Further action would be held under advisement.

Discussion of the Civil-Rights Bill-Secretary Richardson Censured—The Marriage of Miss Grant. [Special telegram to the Dispatch.]

WASHINGTON, May 20.-The Senate to-day liscussed the civil-rights bill, but reached no vote. The probabilities are that it will occupy a week at least, as there are a number of senators who desire to make speeches. The discussion to-day was participated in by Messrs, Flannagan, Pratt, and Thurmanthe latter making a constitutional argument against the passage of the bill, and showing the evils which are sure to arise upon its becoming a law. He contended that it would be to the injury of the colored man, and would only serve to increase whatever prejudice now existed.

Mr. Thurman prefaced his remarks by stating he had no idea they would cause senators to pause, as it was the purpose of the majority to pass the bill, though he had no doubt if it was upon its merits alone not half of them would vote for it. The pressure was the 800,000 negro voters, whose demands had more weight in the halls of Congress than the Constitution of the United States.

The Senate has concurred in the House resolution to adjourn June 22d. So the day of adjournment is now fixed.

The Ways and Means Committee at their meeting to-day adopted a resolution, offered by Mr. Karson of Iowa, censuring Secretary Richardson and other Treasury officials for their connection with the Sanborn contracts. which was adopted. It will probably be reported to the House to-day or to-morrow.

Mr. Foster, who was charged by the committee with reporting the resolution, would have done so to-day had not a letter been received from Mr. Butler asking the postponement of the Sanborn matter until he is able to participate in the discussion.

Episcopal Church.

PHILADELPHIA, May 20 .- Bishop Stevenson, in his annual address to the Convention, referred to the Reformed Episcopal Church

as follows: "Since we last metin Convention an event has occurred which is unprecedented in the history of our Church. One of its bishops has abandoned its communion and transferred, as he declared, his work and sphere has proved to be the establishing of a reformed Episcopal church. "Vigorous efforts have been made by the disaffected sect to asperse the purity of our Church, and sow the seeds of discontent amidst our clergy and laity. To this end falsehood, misrepresentations, and perversions have been resorted to through the book, our police, and our legislation. In this diocese it is satisfactory to know that only one clergyman has been led away in this schismatic movement, and he under very peculiar circumstances.
The Rev. Walter Windeyer, to whom I refer, ministered in the church building erected at the sole expense of a wealthy layman, who kindly loaned it to the congregation of Trinity church at the Falls of the Schuylkill. The property, however, never belonged to the parish, and they had no right in or control over it. When this really excellent layman cast in his lot with the Reformed Episcopal Church he of course carried the church building, which was his private property, with him, while it was but congregation worshipping in that building,

LIFE INSURANCE.

THE FOLLOWING IS TAKEN FROM the Baltimore Enquirer:

"A copy of 'The Policy-holder's Pocket Index,' by the Spectator Company, of New York, showing the standing and condition of American life insurance companies for 1873, is before us. We take pleasure in noting that the Life Insurance Company of Virginia, which has recently established an agency in this city, in its ratio of assets to liabilities, is reported the best in the United States-of losses, among the smallest; of expenses, considering its age, expenses of establishment being included, the smallest; and in every other respect relatively its position is one to afford gratification to its managers and security to its patrons. The compiler rejects from the assets of this company over \$200,000 of secured bonds, considered by the company as safe and secure as they can be made, but which do not conform to the requirements of the New York law. Counting only such as fulfilled that law, the ratio of assets to liability is reported 307 per cent. Adding the omitted assets would nearly double that ratio."
